

Appleslade.

Weather fine and sunny. 12 attended. 33 species seen. Woodland ground species disappointingly few.

Fungus List 19/10/234 W = seen in woodland. G = seen in grassland

Parasitic Bolete	<i>Pseudoboletus parasiticus</i>	W on Earthball
Watery Milkcap	<i>Lactarius subumbonatus</i> (?)	G/W on bank
Charcoal Burner	<i>Russula cyanoxantha</i> var <i>peltereaui</i>	G(!)
The Flirt	<i>Russula vesca</i>	G under lone Oak
Golden Waxcap	<i>Hygrocybe chlorophana</i>	G (1)
Scarlet Waxcap	<i>Hygrocybe coccinea</i>	G
Vermillion Waxcap	<i>Hygrocybe minata</i>	G
Honey Waxcap	<i>Hygrocybe reidii</i>	G
Butter Waxcap	<i>Hygrocybe ceracea</i>	G
Glutinous Waxcap	<i>Hygrocybe glutinipes</i>	G
Slimy Waxcap	<i>Hygrocybe irrigata</i>	G
Bulbous Honey Fungus	<i>Armillaria gallica</i> (?)	G/W on bank
Clouded Funnel	<i>Clitocybe nebularis</i>	W
The Deceiver	<i>Laccaria laccata</i>	W and G
Buttercup	<i>Collybia buteracea</i>	W
Snapping Bonnet	<i>Mycena vitilis</i>	W
Clustered Bonnet	<i>Mycena inclinata</i>	W
Orange Mosscap	<i>Rickenella fibula</i>	G
Bitter Oysterling	<i>Panellus stipticus</i>	W
Star Pinkgill	<i>Enteloma conferendum</i>	G
Funeral Bell	<i>Galerina marginata</i>	W
Sulphur Tuft	<i>Hypholoma fasciculare</i>	W
Liberty Cap aka Magic Mushroom	<i>Psilocybe semilanceolata</i>	G
Hairy Curtain Crust	<i>Sterium hirsutum</i>	W
Pointed Club	<i>Clavaria acuta</i>	G
Yellow Club	<i>Clavulinopsis helvola</i>	G and G in W
Oak Mazegill	<i>Daedalea quercina</i>	W
Common Earthball	<i>Scleroderma citrina</i>	W and G
Yellow Brain	<i>Tremella mesenterica</i>	W (on Hazel?)
Leafy Brain	<i>Tremella foliacea</i>	W (on Stereum)
Oak Crust	<i>Peniophora quercina</i>	W
Scarlet Caterpillar Club	<i>Cordyceps militaris</i>	G
Coral Spot	<i>Nectria cinnabarina</i>	W

(1). One of the largest waxcaps. The large twisted yellow remains almost certainly this species.

Nomenclature follows Sterry and Hughes, 2009.
